

The AFI Advantage

Fully Insured

AFI offers its clients an insured product that no one in our industry can equal. With five-million dollars in liability insurance per incident and a 100% clean insurance claims record, we far exceed the capabilities and professionalism that our competitors can offer. AFI can also increase its liability coverage based on a company's specific needs.

Remote Location Experience

Over the years, our work has taken us across the continent and around the world. Our well-traveled teams have operated in the Yukon, Northern Labrador as well as many other remote locations in the U.S. and overseas. What does this mean to you? It means AFI understands the logistical requirements of remote and foreign areas and can provide the trained personnel with a proven track record in operating in any given locale.

Law Enforcement Liaison

AFI works closely with all law enforcement agencies at the municipal, provincial and federal levels. We understand their strengths and limitations and model our operations to work within their perimeters. Because of our approach, integrity and years of working with law enforcement across the country, we have the necessary relationships in place to assist you efficiently in times of need.

Single Source Provider

We are Canada's leading single source solution provider for all crisis management needs. While our competition generally handles only one aspect of a crisis (i.e. security) and sub-contracts out the remaining services, AFI is the nation's only one stop corporate security source, licensed to operate across Canada.

Training and Recruitment

AFI employees are selectively chosen. Our personnel undergo rigid training and must meet exacting standards before joining our team. In addition to basic training, our security officers and managers complete intense training programs specific to our service offerings.

Labour Dispute, Crisis Management & Investigations Leadership

AFI has more experience in the field than any other firm in Canada. This translates into better strategies and solutions to assist our clients during a work stoppage. Every year, we develop approximately 100 comprehensive contingency plans for our wide-ranging clients. Few can bring this depth of real-world working experience to the table.

Strong Senior Management

The executives on our senior management team all bring diverse backgrounds in both crisis management and corporate business. They possess a deep understanding of how businesses operate, what drives profits and what AFI needs to provide in order to protect our clients' bottom and top-line interests. This understanding extends well beyond physical security to issues such as corporate image, reputation, customer retention, shareholder demands and legal liability.

Excellent References

AFI can provide excellent letters and live personal references from many of our satisfied clients. Our goal is 100% client satisfaction and long-term client retention—our strong references bear witness to the fact that we have achieved this, with many excellent companies across North America.

Confidentiality and Discretion

AFI ensures and maintains discretion and confidentiality throughout any and all business dealings.

Client Briefings/ Management Preparation

AFI conducts pre-project briefings as well as regular daily briefings when projects are on-going in order to be proactive rather than reactive in response to potential incidents. This ensures seamless communication and gives us the ability to resolve any issues in real time before they escalate.

When everything you've worked for is at stake,
you need a full-service resource.

Prepare. Progress through crisis.

About AFI

AFI was first established in 1986 in Ontario, Canada and soon began offering its professional services to companies across the country. To meet a growing demand south of the border, it expanded its operations to encompass all of North America in 2007, opening its first U.S. headquarters in Cleveland, Ohio.

North America's Corporate Security Leaders

AFI International provides elite security, risk management, business continuity and investigative services to protect people and property, both in times of crisis and regular business operations. Look to us for a complete array of pre-crisis planning and premium security solutions – ideal for businesses of all sizes and market sectors.

Contingency Planning: *Planning for the expected... and unexpected*
AFI assists North American corporations of all sizes develop continuity plans to stay accountable, remain secure and exceed both employee and shareholder expectations, as well as all insurance requirements.
Our services include:
• Internal document preparation
• Staff training for emergency response
• Testing of business continuity plan

Labour Dispute Security: *Seasoned protection for peace of mind*
Since 1986, AFI has assisted more than 1,000 image-conscious clients plan for and execute safe and realistic labour dispute strategies. Through our efforts, our clients have been able to manage the negative impacts to their businesses caused by employee-related disputes. Our highly trained personnel ensure:
• Events remain non-confrontational
• All assets and personnel are protected
• Both union officials and management have the resources to maintain positive relations once the situation is resolved

Crisis Management and Response: *Helping you endure the storm*
When a crisis hits, AFI is there to guide your organization with complete on-site management. Our rapid response team provides:
• Transportation services to safely cross picket lines
• Emergency resources, personnel & temporary housing
• Supplemental labor/replacement workers

Executive and Close Protection: *Protecting your biggest asset—your people*
AFI specializes in protecting a company's employees and executive personnel—across North America and around the world. Our close protection specialists are available, either in single or team protection detail, for:
• Travel security planning and monitoring
• Estate security
• Family protection and dedicated security driver services

Security Audits/Threat Assessments: *Proactive solutions for today's complex risks*
AFI works with companies to identify existing, unknown or emerging business risks, along with all areas of vulnerability within an organization. Our audit and assessment experts will:
• Evaluate procedural compliance with internal policies
• Perform internal & external audits
• Provide a fully detailed report (with cost-effective and realistic safety recommendations)

Corporate and Internal Investigations: *Eradicating insider threats*
AFI's corporate investigation team protects companies, their people and their customers from incurring losses due to employee fraud, theft and negligence. Our experienced investigations personnel employ:
• Covert and overt detection strategies
• Sophisticated surveillance equipment for video documentation
• Professional interview services

Benefit Claim Surveillance and Undercover Investigations: *Eliminating false claims, violations and time theft*
AFI's investigations team is the leader in protecting corporations from leaked profits and the escalating costs associated to time theft and employee benefit fraud. Our investigative personnel assist you in eliminating these issues from your workplace through:
• Undercover investigations
• Covert Surveillance
• Evidence documentation and formal presentation

Corporate Event Security: *The show must go on*
Whether it is an annual general meeting, service announcement or product launch, special events require special security. AFI is here to ensure your event runs smoothly, from start to finish. We assist your company with:
• Advanced risk assessments and contingency planning
• Law enforcement/emergency services liaison
• Fully-trained uniformed and plain clothes security personnel
